Store Design

**Company Description:** SESCO® is the U.S. leader in providing equipment, engineering, commissioning, and energy management services for supermarket and restaurant HVAC systems. SESCO® has helped more supermarkets qualify for ENERGY STAR criteria than any other company in the United States.

SESCO® is recognized by industry and government for its expertise and continuing contributions to energy management through applied leading edge technologies within the supermarket HVAC discipline. SESCO® participates with industry and government to further energy management technology through the ENERGY STAR Program and other “Green Building” initiatives. SESCO® is publicly acclaimed for its contributions to the industry by major supermarket chains and the Environmental Protection Agency.

The goal of the SESCO® Program is to ensure the HVAC systems SESCO® provides commission as close to their design point as possible. As most customers can attest, strip shopping center construction does not always produce the best possible results and the owner ends up paying for deficiencies in the form of unnecessarily high energy bills. Broad application of the SESCO® Program to new store development and remodel programs produces significant reductions in operating costs associated with energy and maintenance.

SESCO® has completed more than 3,000 supermarket projects over the past 20 years. Our commitment to continuous process improvement throughout our history has resulted in the most experienced knowledge base regarding supermarket environments of any company in the United States.

Thermal Resource Solutions specializes in complex, custom, and energy-efficient mechanical and plumbing systems. We provide best-in-class application engineering and equipment services tailored to individual client needs. We approach a project from a systems perspective rather than an individual equipment perspective. We understand how all equipment components interact and strive to provide the best total system with the highest efficiency and the lowest life cycle cost.

We have a full-service division of factory-trained and certified technicians to perform equipment start-up, maintenance, warranty, and commissioning services.

Thermal Resource Solutions provides exclusive representation and sales/services for commercial and industrial HVAC and plumbing equipment manufacturers in North Carolina, South Carolina, and Georgia.
