Company Description: Afresh is the world's leading fresh technology company helping grocers make smarter decisions throughout their fresh supply chain, ultimately increasing profits and significantly reducing food waste.

Success in fresh relies on making good decisions with incomplete, ever-changing, and uncertain information — realities inherent and inevitable in fresh grocery. Legacy systems and practices for managing fresh inventory are not built to recognize or respond to this reality. Many grocers today are stuck betting their most strategic category on brittle technology and convoluted labor practices, leading to increased costs and reduced quality for consumers.

With Afresh's built-for-fresh approach, more than 3,000 stores are seeing incredible results, on average:

- +3% sales increase
- +20% improvement in labor efficiency
- 25% shrink reduction
- 80% stockout reduction
- +7% faster inventory turns

Company Description:	<p>ALL-TAG is an American manufacturer of Anti-Theft products that help retailers reduce common and ORC theft while boosting sales. We are the market leader in customizing products to include individual store specific information to aid in the recovery and return of stolen merchandise. These products are virtually impossible to remove from merchandise packaging, and will permanently damage the packaging if they are forcibly removed. Retailers can protect their merchandise while making it accessible to shoppers, which is critical for maximizing sales. The cost of these products is extremely low when compared to lock boxes, keepers, spider wraps, shelf protectors, etc. All of these factors lead to a quick and substantial ROI. ALL-TAG manufactures RF Labels in their South Florida facility, and is a leading supplier of AM labels. Top retailers and their Source Tagging partners around the world are using ALL-TAG RF and AM Labels to protect their merchandise.</p> <p>Veesion Pro, also provided by ALL-TAG, is intelligent video surveillance software that continuously analyzes any retailer's cameras. The software automatically detects suspicious shoplifting behavior and gestures in real time with algorithmic analysis of video footage. A video notification is immediately sent to store personnel providing the retailer an opportunity to prevent theft and ORC while it is happening.</p> <p>Veesion is an enhancement to any video surveillance system as it is the equivalent of having a set of eyes on every camera in a retail store. Furthermore, it does so for the fraction of the price of a video room monitor and with much greater accuracy.</p>

**Company Description:** Because we believe in doers — the ones who take action and get the job done. The ones who change companies and industries forever.

Doers take pride in crushing a goal; closing a sale; making a customer happy; and delivering ahead of schedule.

Doers don't waste time and don't risk results — they do more with less.

We see a world where the doers do less work about work, and have more time for important things — on and off the clock.

Always driving forward and taking pride in what they've accomplished.

We believe in the doers, because we are doers, too. We are customer-obsessed; execution-oriented; growth-minded, and passionately curious.

And we build great products for the doers of the world, so they can do what they do best: Great Work.

Nearly 80 years later, we're prouder than ever to supply many of the California Black Ripe and Sliced Olives found in restaurants across the country.

### The California Difference

As the only 100% California-owned, family-run full-line olive business in America, the Musco Family Olive Company is known for outstanding, uncompromising quality. Our supply chain has been the same for decades, anchored by long-term relationships with multi-generational California farmers. Our black ripe olives are sourced from over 450 California growers — each one a valued member of our extended family. Our process is completely transparent, resulting in consistently superior-quality olives from tree to table. Our competitors, on the other hand, mix and match different types of olives from a variety of countries, resulting in inconsistent textures and flavors.

The creation of both the Reynolds® and Hefty® brands is the direct result of American ingenuity mixed with a bit of elbow grease. Reynolds Wrap® foil was invented after aluminum was no longer needed for military use; and became a new staple for American kitchens. Hefty® waste bags were first developed with excess material from an early plastics innovator, creating another household essential.

Company Description: We've been in your shoes. We've experienced your frustration. The Allan Sullivan Co. was born when we set out to change it. We built the brokerage to provide the value we wish we got when we were in your position.

Over the course of our careers, we've led everything from category and trade marketing to national account teams and business units in excess of \$1B. We've been on the manufacturer side of the table and the retailer side of the table. We've been at large multinationals and small startups.

No matter where we were, we kept being underwhelmed by the quality of the manufacturers reps we ran into. Even the ones we hired – we were always left wanting more. How was it possible that such a critical part of the value equation could come up so short so often?

Products / Services: Construction; Consulting Services; Energy Management; Equipment; Store Design

**Company Description:** SESCO® is the U.S. leader in providing equipment, engineering, commissioning, and energy management services for supermarket and restaurant HVAC systems. SESCO® has helped more supermarkets qualify for ENERGY STAR criteria than any other company in the United States.

SESCO® is recognized by industry and government for its expertise and continuing contributions to energy management through applied leading edge technologies within the supermarket HVAC discipline. SESCO® participates with industry and government to further energy management technology through the ENERGY STAR Program and other “Green Building” initiatives. SESCO® is publicly acclaimed for its contributions to the industry by major supermarket chains and the Environmental Protection Agency.

The goal of the SESCO® Program is to ensure the HVAC systems SESCO® provides commission as close to their design point as possible. As most customers can attest, strip shopping center construction does not always produce the best possible results and the owner ends up paying for deficiencies in the form of unnecessarily high energy bills. Broad application of the SESCO® Program to new store development and remodel programs produces significant reductions in operating costs associated with energy and maintenance.

SESCO® has completed more than 3,000 supermarket projects over the past 20 years. Our commitment to continuous process improvement throughout our history has resulted in the most experienced knowledge base regarding supermarket environments of any company in the United States.

**Company Description:** UEP's first organizational meeting was held in Chicago on November 12, 1968 at which time egg producers from across the U.S. recognized the need for a regional cooperative organization to address the needs of the industry. Thus, five regional offices were created: Midwest UEP, Southern UEP, North Atlantic UEP, West Coast and Northwest United Egg Producers. A federated Capper-Volstead Agricultural Cooperative was structured with membership available to producers who are engaged as a farmer in the production of table eggs. Membership is also available to owners of breeder flocks, hatcheries, pullets growers, contract egg producers, and farm cooperatives that meet the requirement of owned or leased facilities.

In October 1998, the by-laws of UEP were amended thereby changing the organization to a direct member organization.
