Doers take pride in crushing a goal; closing a sale; making a customer happy; and delivering ahead of schedule.

Doers don't waste time and don't risk results — they do more with less.

We see a world where the doers do less work about work, and have more time for important things — on and off the clock.

Always driving forward and taking pride in what they've accomplished.

We believe in the doers, because we are doers, too. We are customer-obsessed; execution-oriented; growth-minded, and passionately curious.

And we build great products for the doers of the world, so they can do what they do best: Great Work.

Company Description: Before being served, coffee passes through forty pairs of hands in its journey from sowing to an espresso cup. Behind every one of these exchanges, there is a different culture, a face, a story to be told. 40 Hands is a journey to discover the people who have decided to dedicate their lives to their passion for coffee. The coffee journey follows a path that unfolds through generations and latitudes, united by the same values: "Respect, dedication and responsibility, especially towards nature," says Enrique Mancilla Oyos, a Peruvian farmer who has been working with Lavazza for years. His ancestors processed coffee at Nagazú, but at the time there were no roads, so production was limited to the needs of the family.

Company Description: We could tell you that when Sarah and Emmet Condon started Liquid Remedy in their kitchen in Melbourne, Australia, they had no idea what lay ahead. But we'd be lying. They had an inkling. It all started with some home-brewed kombucha. Their kids were into it. Their mates were hooked. Family members were dropping by more often for a taste.

So, they took a chance. Some might call it a massive risk. They had a young family. No jobs to fall back on. Some savings, a couple of credit cards. Entrepreneurial know-how, but no experience in the food and drinks world. What they did have was big aspirations and a simple belief.

They wanted to do something good. Shake things up. They knew that healthy didn't have to be boring. Healthy could be tasty. Extraordinary, even. They believed we all deserve to know that too.

Company Description: The Molson Coors Beverage Company is a multinational brewing company, formed in 2005 by the merger of Molson of Canada, and Coors of the United States. It is the world's seventh largest brewer by volume

While the company is incorporated in the United States, it is traded on stock exchanges in both the United States and Canada, and control is equally shared between the Molson and Coors families. The company is headquartered at 1801 California Street, a 1,372,179-square-foot (127,479.6 m²), 53-story building formerly known as the Transamerica Tower in Denver. It occupies 67,000-square-foot (6,200 m²) of space located on the 45th, 46th and part of the 47th floors of the structure.[7][8]

Molson Coors expanded significantly after the merger of Anheuser-Busch InBev and SABMiller in October 2016. This was achieved because during the plans for the merger, SABMiller had agreed to divest itself of the Miller brands by selling its stake in MillerCoors to Molson Coors.[9]

The California Difference

As the only 100% California-owned, family-run full-line olive business in America, the Musco Family Olive Company is known for outstanding, uncompromising quality. Our supply chain has been the same for decades, anchored by long-term relationships with multi-generational California farmers. Our black ripe olives are sourced from over 450 California growers — each one a valued member of our extended family. Our process is completely transparent, resulting in consistently superior-quality olives from tree to table. Our competitors, on the other hand, mix and match different types of olives from a variety of countries, resulting in inconsistent textures and flavors.

How it works
Each OSMG partner serves as an independently-owned regional broker, with personal relationships and familiarity with their specific accounts in their region of the country.

When you decide that you want nationwide coverage, the partners join together seamlessly to create one cohesive broker - On Shelf Marketing Group (OSMG).

The same time and dedication you would receive in a local setting is applied throughout the nation.

Products / Services: Fresh; Frozen; Nonfoods

Company Description: Two of the most trusted household brands, Reynolds® and Hefty®, joined together as Reynolds Consumer Products in 2010. While the establishment of this new company made it official, the truth is that Reynolds® and Hefty® products have been found side-by-side in the kitchens of American families for more than three generations.

The creation of both the Reynolds® and Hefty® brands is the direct result of American ingenuity mixed with a bit of elbow grease. Reynolds Wrap® foil was invented after aluminum was no longer needed for military use; and became a new staple for American kitchens. Hefty® waste bags were first developed with excess material from an early plastics innovator, creating another household essential.

Company Description: Our journey began in 2015, when our founder's consulting firm, Bianix Technology, won a contract to solve the item on boarding challenge at Canada's largest retailer, Loblaw Companies Ltd. We revolutionized item setup at Loblaw, reducing time to onboard new items from weeks and months to 1-3 days, generating over 30 million dollars annually in increased profit, and millions more in cost savings.

Inspired by this success, we decided to bring our solution to the world. In 2017, we launched Simplista, an agile, intelligent, API-centric SaaS platform designed to streamline trade between retailers and their supplier partners.

Company Description: We've been in your shoes. We've experienced your frustration. The Allan Sullivan Co. was born when we set out to change it. We built the brokerage to provide the value we wish we got when we were in your position.

Over the course of our careers, we've led everything from category and trade marketing to national account teams and business units in excess of \$1B. We've been on the manufacturer side of the table and the retailer side of the table. We've been at large multinationals and small startups.

No matter where we were, we kept being underwhelmed by the quality of the manufacturers reps we ran into. Even the ones we hired – we were always left wanting more. How was it possible that such a critical part of the value equation could come up so short so often?
