Products / Services: Technology Services

Company Description: Retail Insight is a leading provider of in-store execution software for grocery retail. We help retailers tackle some of their biggest challenges, including product availability, food waste management, labor productivity, and phantom inventory.

We believe that successful solutions are built on a fundamental understanding of the nuances and complexities that come with the retail industry. This is why we use cognitive technology; the augmentation of human subject-matter expertise and analytics with advanced mathematical techniques.

Our software solutions ingest a retailer's foundational data to surface actions for your in-store teams as well as provide all-level reporting. As a result, we seamlessly integrate with your existing tech stack, require little IT investment or change management, supplement existing inventory and ordering systems and carry little to no capital investment.

As a result, we now work with many of the world's leading grocery retailers and CPGs.

Company Description: Two of the most trusted household brands, Reynolds® and Hefty®, joined together as Reynolds Consumer Products in 2010. While the establishment of this new company made it official, the truth is that Reynolds® and Hefty® products have been found side-by-side in the kitchens of American families for more than three generations.

The creation of both the Reynolds® and Hefty® brands is the direct result of American ingenuity mixed with a bit of elbow grease. Reynolds Wrap® foil was invented after aluminum was no longer needed for military use; and became a new staple for American kitchens. Hefty® waste bags were first developed with excess material from an early plastics innovator, creating another household essential.
