Company Description: Afresh is the world's leading fresh technology company helping grocers make smarter decisions throughout their fresh supply chain, ultimately increasing profits and significantly reducing food waste.

Success in fresh relies on making good decisions with incomplete, ever-changing, and uncertain information — realities inherent and inevitable in fresh grocery. Legacy systems and practices for managing fresh inventory are not built to recognize or respond to this reality. Many grocers today are stuck betting their most strategic category on brittle technology and convoluted labor practices, leading to increased costs and reduced quality for consumers.

With Afresh's built-for-fresh approach, more than 3,000 stores are seeing incredible results, on average:

- +3% sales increase
- +20% improvement in labor efficiency
- 25% shrink reduction
- 80% stockout reduction
- +7% faster inventory turns

Website: www.all-tag.com

Products / Services: Security Systems & Products

Company Description: ALL-TAG is an American manufacturer of Anti-Theft products that help retailers reduce common and ORC theft while boosting sales. We are the market leader in customizing products to include individual store specific information to aid in the recovery and return of stolen merchandise. These products are virtually impossible to remove from merchandise packaging, and will permanently damage the packaging if they are forcibly removed. Retailers can protect their merchandise while making it accessible to shoppers, which is critical for maximizing sales. The cost of these products is extremely low when compared to lock boxes, keepers, spider wraps, shelf protectors, etc. All of these factors lead to a quick and substantial ROI. ALL-TAG manufactures RF Labels in their South Florida facility, and is a leading supplier of AM labels. Top retailers and their Source Tagging partners around the world are using ALL-TAG RF and AM Labels to protect their merchandise.

Veesion Pro, also provided by ALL-TAG, is intelligent video surveillance software that continuously analyzes any retailer's cameras. The software automatically detects suspicious shoplifting behavior and gestures in real time with algorithmic analysis of video footage. A video notification is immediately sent to store personnel providing the retailer an opportunity to prevent theft and ORC while it is happening.

Veesion is an enhancement to any video surveillance system as it is the equivalent of having a set of eyes on every camera in a retail store. Furthermore, it does so for the fraction of the price of a video room monitor and with much greater accuracy.

Company Description: ARC solves operational challenges faced by companies who have large investments in handheld devices (i.e., devices by Zebra, Honeywell, etc.), which associates use to be productive for tasks like package/baggage scanning, inventory check, mobile PoS, etc. We've learned from clients that managing handheld devices is a nightmare -- they're experiencing surprisingly high device shrink, wasted time managing manual processes, and lost productivity when devices stop working, go missing, or batteries die.

ARC is a device management solution integrated with smart lockers to store, secure, and charge these company-owned handheld devices. ARC reduces device shrink, hits to productivity, wasted payroll time consumed by managers, and the number of faulty devices in circulation.

Doers take pride in crushing a goal; closing a sale; making a customer happy; and delivering ahead of schedule.

Doers don't waste time and don't risk results — they do more with less.

We see a world where the doers do less work about work, and have more time for important things — on and off the clock.

Always driving forward and taking pride in what they've accomplished.

We believe in the doers, because we are doers, too. We are customer-obsessed; execution-oriented; growth-minded, and passionately curious.

And we build great products for the doers of the world, so they can do what they do best: Great Work.

Company Description: Before being served, coffee passes through forty pairs of hands in its journey from sowing to an espresso cup. Behind every one of these exchanges, there is a different culture, a face, a story to be told. 40 Hands is a journey to discover the people who have decided to dedicate their lives to their passion for coffee. The coffee journey follows a path that unfolds through generations and latitudes, united by the same values: "Respect, dedication and responsibility, especially towards nature," says Enrique Mancilla Oyos, a Peruvian farmer who has been working with Lavazza for years. His ancestors processed coffee at Nagazú, but at the time there were no roads, so production was limited to the needs of the family.

Company Description: We could tell you that when Sarah and Emmet Condon started Liquid Remedy in their kitchen in Melbourne, Australia, they had no idea what lay ahead. But we'd be lying. They had an inkling. It all started with some home-brewed kombucha. Their kids were into it. Their mates were hooked. Family members were dropping by more often for a taste.

So, they took a chance. Some might call it a massive risk. They had a young family. No jobs to fall back on. Some savings, a couple of credit cards. Entrepreneurial know-how, but no experience in the food and drinks world. What they did have was big aspirations and a simple belief.

They wanted to do something good. Shake things up. They knew that healthy didn't have to be boring. Healthy could be tasty. Extraordinary, even. They believed we all deserve to know that too.

Company Description: Four Generations and more than 60 years later, Maple Leaf Farms duck continues to create culinary experiences from the kitchen table to restaurants around the world. Our farm to fork focus and vertical integration ensures that you are getting the tastiest duck in the most sustainable and humane way possible.

We knew from the start that treating our ducks right is our top priority. That's why we put care into every step of farming, feeding, and processing. We keep our ducks as happy and healthy as possible at our farms. They eat a healthy balance of grains and veggies and are free to roam in cage free barns. We knew this was a priority from the start, so we developed the first and only duck well-being guidelines with veterinarians and poultry scientists from all over the country.

Our Trident Stewardship Program is the leading duck care program in the world.

Company Description: The Molson Coors Beverage Company is a multinational brewing company, formed in 2005 by the merger of Molson of Canada, and Coors of the United States. It is the world's seventh largest brewer by volume

While the company is incorporated in the United States, it is traded on stock exchanges in both the United States and Canada, and control is equally shared between the Molson and Coors families. The company is headquartered at 1801 California Street, a 1,372,179-square-foot (127,479.6 m²), 53-story building formerly known as the Transamerica Tower in Denver. It occupies 67,000-square-foot (6,200 m²) of space located on the 45th, 46th and part of the 47th floors of the structure.[7][8]

Molson Coors expanded significantly after the merger of Anheuser-Busch InBev and SABMiller in October 2016. This was achieved because during the plans for the merger, SABMiller had agreed to divest itself of the Miller brands by selling its stake in MillerCoors to Molson Coors.[9]

Each OSMG partner serves as an independently-owned regional broker, with personal relationships and familiarity with their specific accounts in their region of the country.

When you decide that you want nationwide coverage, the partners join together seamlessly to create one cohesive broker - On Shelf Marketing Group (OSMG).

The same time and dedication you would receive in a local setting is applied throughout the nation.

Products / Services: Technology Services

Company Description: Retail Insight is a leading provider of in-store execution software for grocery retail. We help retailers tackle some of their biggest challenges, including product availability, food waste management, labor productivity, and phantom inventory.

We believe that successful solutions are built on a fundamental understanding of the nuances and complexities that come with the retail industry. This is why we use cognitive technology; the augmentation of human subject-matter expertise and analytics with advanced mathematical techniques.

Our software solutions ingest a retailer's foundational data to surface actions for your in-store teams as well as provide all-level reporting. As a result, we seamlessly integrate with your existing tech stack, require little IT investment or change management, supplement existing inventory and ordering systems and carry little to no capital investment.

As a result, we now work with many of the world's leading grocery retailers and CPGs.

Company Description: Two of the most trusted household brands, Reynolds® and Hefty®, joined together as Reynolds Consumer Products in 2010. While the establishment of this new company made it official, the truth is that Reynolds® and Hefty® products have been found side-by-side in the kitchens of American families for more than three generations.

The creation of both the Reynolds® and Hefty® brands is the direct result of American ingenuity mixed with a bit of elbow grease. Reynolds Wrap® foil was invented after aluminum was no longer needed for military use; and became a new staple for American kitchens. Hefty® waste bags were first developed with excess material from an early plastics innovator, creating another household essential.

Company Description: UEP's first organizational meeting was held in Chicago on November 12, 1968 at which time egg producers from across the U.S. recognized the need for a regional cooperative organization to address the needs of the industry. Thus, five regional offices were created: Midwest UEP, Southern UEP, North Atlantic UEP, West Coast and Northwest United Egg Producers. A federated Capper-Volstead Agricultural Cooperative was structured with membership available to producers who are engaged as a farmer in the production of table eggs. Membership is also available to owners of breeder flocks, hatcheries, pullets growers, contract egg producers, and farm cooperatives that meet the requirement of owned or leased facilities.

In October 1998, the by-laws of UEP were amended thereby changing the organization to a direct member organization.
