Products / Services: Fresh; Perishables; Supply Chain; Technology Services

Company Description: Afresh is the world's leading fresh technology company helping grocers make smarter decisions throughout their fresh supply chain, ultimately increasing profits and significantly reducing food waste.

Success in fresh relies on making good decisions with incomplete, ever-changing, and uncertain information — realities inherent and inevitable in fresh grocery. Legacy systems and practices for managing fresh inventory are not built to recognize or respond to this reality. Many grocers today are stuck betting their most strategic category on brittle technology and convoluted labor practices, leading to increased costs and reduced quality for consumers.

With Afresh's built-for-fresh approach, more than 3,000 stores are seeing incredible results, on average:

- +3% sales increase
- +20% improvement in labor efficiency
- 25% shrink reduction
- 80% stockout reduction
- +7% faster inventory turns

Company Description: Ron Beldegrun and Mia Funt realized that the infant formula industry needed to do better for babies. Breast milk research was moving faster than new product innovation, with three companies owning approximately 90% of the market.

Together, they embarked on (what would become) a five-year journey to baby's first food—with no compromises.

We recruited world-class doctors, pediatric researchers, seasoned formula experts, dedicated blendmasters, quality obsessives, regulatory veterans, data wonks, storytellers, designers, and passionate parents.

Our team began to grow, applying leading research to our unique formulation. We built quality systems and supplier approval requirements from the ground up, traveled the world for like-minded ingredient and farm partners, and refined our small batch approach to ensure we knew how to retain the quality and benefit of every ingredient.

Company Description: We reach hard-to-reach affinity groups like Latinas or Millennials. We drive traffic via inspiring real life product stories promoting new items. We amplify demos to spike sales outside the 4-6 hour demo period. We make new store openings incredibly successful. And we do all this by using social media to solve shopper marketing problems.

CB harnesses the power of social content through our community of geographically and demographically diverse social influencers who have micro audiences centered on specific affinities and passions. They have incredible reach and their content generates high levels of engagement with value-conscious shoppers; this content gets deployed across all social channels and initiates two-way conversations directly with customers to influence purchase decisions.

This is shopper social media and CB is the only one who does it.

Company Description: Because we believe in doers — the ones who take action and get the job done. The ones who change companies and industries forever.

Doers take pride in crushing a goal; closing a sale; making a customer happy; and delivering ahead of schedule.

Doers don't waste time and don't risk results — they do more with less.

We see a world where the doers do less work about work, and have more time for important things — on and off the clock.

Always driving forward and taking pride in what they've accomplished.

We believe in the doers, because we are doers, too. We are customer-obsessed; execution-oriented; growth-minded, and passionately curious.

And we build great products for the doers of the world, so they can do what they do best: Great Work.

Company Description: Before being served, coffee passes through forty pairs of hands in its journey from sowing to an espresso cup. Behind every one of these exchanges, there is a different culture, a face, a story to be told. 40 Hands is a journey to discover the people who have decided to dedicate their lives to their passion for coffee. The coffee journey follows a path that unfolds through generations and latitudes, united by the same values: "Respect, dedication and responsibility, especially towards nature," says Enrique Mancilla Oyos, a Peruvian farmer who has been working with Lavazza for years. His ancestors processed coffee at Nagazú, but at the time there were no roads, so production was limited to the needs of the family.

Company Description: The Molson Coors Beverage Company is a multinational brewing company, formed in 2005 by the merger of Molson of Canada, and Coors of the United States. It is the world's seventh largest brewer by volume

While the company is incorporated in the United States, it is traded on stock exchanges in both the United States and Canada, and control is equally shared between the Molson and Coors families. The company is headquartered at 1801 California Street, a 1,372,179-square-foot (127,479.6 m2), 53-story building formerly known as the Transamerica Tower in Denver. It occupies 67,000-square-foot (6,200 m2) of space located on the 45th, 46th and part of the 47th floors of the structure.[7][8]

Molson Coors expanded significantly after the merger of Anheuser-Busch InBev and SABMiller in October 2016. This was achieved because during the plans for the merger, SABMiller had agreed to divest itself of the Miller brands by selling its stake in MillerCoors to Molson Coors.[9]

Company Description: We could tell you that when Sarah and Emmet Condon started Remedy in their kitchen in Melbourne, Australia, they had no idea what lay ahead. But we'd be lying. They had an inkling. It all started with some home-brewed kombucha. Their kids were into it. Their mates were hooked. Family members were dropping by more often for a taste.

So, they took a chance. Some might call it a massive risk. They had a young family. No jobs to fall back on. Some savings, a couple of credit cards. Entrepreneurial know-how, but no experience in the food and drinks world. What they did have was big aspirations and a simple belief.

They wanted to do something good. Shake things up. They knew that healthy didn't have to be boring. Healthy could be tasty. Extraordinary, even. They believed we all deserve to know that too.

Company Description: Retail Insight is a leading provider of in-store execution software for grocery retail. We help retailers tackle some of their biggest challenges, including product availability, food waste management, labor productivity, and phantom inventory.

We believe that successful solutions are built on a fundamental understanding of the nuances and complexities that come with the retail industry. This is why we use cognitive technology; the augmentation of human subject-matter expertise and analytics with advanced mathematical techniques.

Our software solutions ingest a retailer's foundational data to surface actions for your in-store teams as well as provide all-level reporting. As a result, we seamlessly integrate with your existing tech stack, require little IT investment or change management, supplement existing inventory and ordering systems and carry little to no capital investment.

As a result, we now work with many of the world's leading grocery retailers and CPGs.

Company Description: Two of the most trusted household brands, Reynolds® and Hefty®, joined together as Reynolds Consumer Products in 2010. While the establishment of this new company made it official, the truth is that Reynolds® and Hefty® products have been found side-by-side in the kitchens of American families for more than three generations.

The creation of both the Reynolds® and Hefty® brands is the direct result of American ingenuity mixed with a bit of elbow grease. Reynolds Wrap® foil was invented after aluminum was no longer needed for military use; and became a new staple for American kitchens. Hefty® waste bags were first developed with excess material from an early plastics innovator, creating another household essential.

Company Description:	<p>When you've been in business for over 150 years, you learn a lot. From our beginning in 1866 as a prescription apothecary shop, founders Augustus G. Schlotterbeck and Charles S. Foss earned a reputation for quality handcrafted products and fair dealings. They maintained these principles when they moved on to develop patented medicines and flavoring extracts in the 20th century.</p> <p>In the 21st century we have kept with tradition and emerged as a leader in the private label, premium sauces, marinade and condiments' space. Our core competency in product development supports our proprietary small batch manufacturing capabilities, resulting in marquee specialty foods. Our unmatched product development, using our selection of organic, clean label and non-GMO ingredients allows us to offer highly differentiated, innovative products that drive consumer loyalty.</p> <p>Through the evolution of the company we have not changed our high standards, attention to detail and quality products. Our fudges are made of the finest Dutch cocoas and our coffees from specialty roasted beans grown around the world. The fruits and vegetables in our sauces and salsas are the freshest available and, whenever possible, organic. The seasonings and spices we choose for our dressings, grilling sauces, mustards and marinades are all-natural.</p> <p>Though others may try to imitate our flavors, the main missing ingredient is always experience. No one in the industry does it better, because no one has done it longer. So indulge yourself in our products and discover why we've been pleasing palates for over 150 years.</p>

Company Description: We've been in your shoes. We've experienced your frustration. The Allan Sullivan Co. was born when we set out to change it. We built the brokerage to provide the value we wish we got when we were in your position.

Over the course of our careers, we've led everything from category and trade marketing to national account teams and business units in excess of \$1B. We've been on the manufacturer side of the table and the retailer side of the table. We've been at large multinationals and small startups.

No matter where we were, we kept being underwhelmed by the quality of the manufacturers reps we ran into. Even the ones we hired – we were always left wanting more. How was it possible that such a critical part of the value equation could come up so short so often?

Over time, he discovered a vast information gap between the people who catch and process fish and those who buy and eat it. Phil believed traceability was the solution to fill that information gap and started Trace Register in 2005, bringing together a team with a depth of experience in the seafood industry and technology.

Daniel started his career working for General Mills and Tia Maria Bakery in the early 2000s where he learned how to place products on the shelves for a variety of retailers and gained food production experience. He continued his career at Sherwood Foods as a Buyer. Soon after, he worked 2-year for Colorado Boxed Beef, where he mastered both areas of expertise, buying and selling commodities. This experience led him to a successful 8-year career with Signature Foods. At Signature he managed the procurement and sales department, further developed the Pick-5 business brand and expanded and grew the company's IQF chicken product line, domestically and internationally. Daniel became the most successful sales employee within Signature Foods.
